SS MAGIC

Finished Metal Renovator and Stainless Steel Cleaner

For Use On:

- Stainless Steel
- Aluminum
- Chrome
- Copper
- Brass
- Formica
- Porcelain

SS MAGIC maintains a bright, spotlessly clean finish on metal equipment in kitchens, restaurants, offices, elevators, factories and in many other areas. Its self-indicating creamy foam easily removes tough oil-based stains, as well as water spots, spills and soils of food origin. SS MAGIC polishes brightly as it cleans, leaving a unique coating which resists further soiling.

- ✓ Cleans, Polishes & Preserves the High Luster of Stainless Steel Finishes
- ✓ Removes Fingerprints, Grease and Water Spots
- ✓ Leaves Behind a Durable Soil-Resistant Coating

APPLICATIONS

SS MAGIC is a renovator for stainless steel and other finished metals. It is formulated to remove water spots as well as greasy soils from stainless steel, aluminum, chrome, copper, brass, formica and porcelain. SS MAGIC is used in kitchens, restaurants, office buildings and cafeterias.

DIRECTIONS

Spray sparingly over surface. Wipe clean with damp cloth. For heavily soiled surfaces, allow foam to penetrate for a minute before wiping. Polish to a bright finish with a clean dry cloth.

TECHNICAL DATA

Composition:	A mixture of emulsifiers and polishing agents
Type:	Emulsion
pH:	7.0 - 7.5
Specific Gravity:	1.02
Flammability:	Non-Flammable as per USA Flame Projection Test
